PROFESSIONAL SUMMARY

Dedicated Software Engineer with a passion for AI & Robotics with one year of professional experience in full stack development and integrating ML/DL features. Confident in my ability to innovate and adapt to deliver optimal solutions. Committed to continuous improvement and impacting team success.

WORK EXPERIENCE

Neuss for App Development

Irbid, Jordan

Software Engineer

Oct 2022 - Nov 2023

- Developed a comprehensive app using **Flutter** for remote employees to record the content and durations of their work sessions for efficient management, convenience and privacy.
- Integrated real-time chatting functionality using **MQTT** to facilitate seamless communication among employees.
- Implemented a robust **backend** architecture using **FastAPI** and **PostgreSQL** to ensure efficient data management and secure operations.
- Optimized the entire system using **Docker** and streamlined development workflows using **GitHub** for version control and continuous integration.
- Utilized **Machine Learning** techniques to perform **IoT** data analysis, expanding the company's **AIoT** capabilities.
- Adapted Tasmota firmware for easy **ESP** board connections, configuration, **time series data** collection from sensors, and efficient data transmission to **InfluxDB** and **Grafana** via **Telegraf**.
- **Fine-tuned** Whisper model to transcribe Egyptian dialect using **PyTorch**.

SKILLS

- | | | | | | | |
|----------|-----------|----------|------------|-----------|--------------|------------|
| • Python | • FastApi | • Unity | • Firebase | • NLP | • RESTful | • Robotics |
| • Java | • Flask | • Unreal | • Docker | • CV | • API | • IoT |
| • Dart | • MERN | • Engine | • Github | • RAG | • PostgreSQL | • Embedded |
| • JS | • stack | • VR/AR | • Linux | • PyTorch | • MongoDB | • systems |
| • c# | • Flutter | | | | • InfluxDB | |
| | | | | | • MQTT | |
| | | | | | • Grafana | |
| | | | | | • Telegraf | |

EDUCATION

Brandenburg University of Technology

Cottbus, Germany

Master of Science in Artificial Intelligence

Oct 2024 – Present

German University in Cairo

Cairo, Egypt

Computer Engineering.

Feb 2024

Bachelor of Science in Media Engineering and Technology GPA: 2,4

Bachelor Thesis: Social Companion Robot

- Computer Vision: Implemented face, emotion, object and color recognition, image captioning.

- NLP: Developed a conversational chatbot using PyTorch, integrated with a customized chatbot for versatile user interactions.

- Speech-to-text and Text-to-speech engines.

Relevant Coursework:

Artificial Intelligence - Machine learning - Computer Vision - Deep learning in Computer Vision
